

My name is Dr. Mahamad Adam

I graduated from the NUSU MBBS program, class of 2019, with first class honors.

I conducted research about the education system and education is my area of interest.

I worked closely with National University Sudan and Sudan Medical Council staff to draft an advanced and accredited medical education curriculum.

After returning to Calgary Alberta, Canada I have started two successful companies in construction and import/export. I have been also working as a volunteer, conducting audits with Alberta Health Services.

Medical achievements completed since graduation (as of September 2022):

1. Completed internship in Sudan.
2. Completed Canadian medical licensing exams.

Currently working on:

1. Canadian residency application
2. Research
3. Book publication
4. Youth mentoring
