- 1998-upto1999:
SHO in General Medicine, Bantry Hospital.
- 1997-1998
SHO in General Medicine, St Vinscent University hospital, Elm Park St Luke hospital, Dublin.

RECOMMENDATIONS:

- He is appointed as general director of the national cardiothoracic institute since October 2013. The center is responsible of cardiology training, planning research, and data base and cardiology service distribution in Sudan.
- He is the senior cardiologist and the chairman of cardiology advisory board in Federal ministry of health, as he is a focal person for cardiology in the country, he demonstrated a high level of professional dedication clinical competency research and academic ability. I have no hesitation to recommend him for any further promotion.

The above was the recommendation of Dr. Esameldin Mohammed Abdalla under secretary of federal Ministry of Health.

- It is with great enthusiasm that I write in support of Dr.Salah Mohamed. He joined the Cardiology Department at The National Institute of Cardiac Diseases and Cardiac Surgery at Alshaab Hospital as an Interventional Cardiologist/Physiciansinceearly2008.Hejoined our group as an already well-trained in the field of General Internal Medicine with great exposure to Cardiology from his previous experience with cardiac and academic work in Europe.
- He is one of leaders and God fathers of modern cardiology in Sudan as he is one of the founder and current director of our Fellowship Program, a program which all are proud off. His current job as the Director of the National Institute of Cardiac Diseases and Cardiac Surgery coupled with being the Head Department of Cardiology at Alshaab Teaching Hospital enabled him to providegreatsupporttoallCardiologistsatthenationallevelaswellasatour noble Institute.
- During this period, he was found to be highly competent both clinically and procedurally. His knowledge base, clinical-judgment and technical skills are exceptional, and his relationships with consultant colleagues, house staff and nursing staff were excellent. He has proven himself to be successful team member and a confident and articulate communicator with an excellent teaching ability.
- Dr. Mohammed is compassionate and empathetic with patients and their families, and frequently sacrificed his own time to ensure their comfort. We benefited a lot from his medical and cardiac experience and we appreciated the volume of procedures he managed to perform at Alshaab Hospital. He participated fully in our teaching program.
- He has the knowledge, experience and adequately trained to take the position of a Cardiology senior consultant with any institute. I strongly recommend him as an excellent ambitious doctor and I believe his tremendous experience in cardiology should be considered with great appreciation of work volume and magnitude one for our beloved Sudan. If I can be of any further assistance, please do not hesitate to contact me directly.

The above was the recommendation of Dr. Elsadig Saeed Askar Director Alshaab Teaching Hospital

- Dr.Salah Mohamed Ibrahim Mohamed was elected as convener of Adult cardiology council, since its establishment in 2012. In the last years he has been acting as a chairman of the council. The council is responsible for the structural training programme in cardiology leading to the award of fellowship in cardiology.
- He demonstrated a high level of commitment to the programme. He is extremely responsible, efficient and hardworking professional who works in Harmony with all the staff in his council and SMSB at large.

The above was the recommendation of Dr.Hamad A.H.El-Turabi Academic secretary SMSB.

- I am writing as head of the department of medicine and therapeutics in support of Dr. Salah Mohamed. He has participated in our current undergraduate teaching programme. Last year he was voted one of the top five registrar teachers at St. Vincent's University Hospital. As a consequence he mentored over 6 final medical students and the feedback from the group was extremely positive, both of the time spent and the quality of his teaching.

Dr. Seamas Donnelly (head of medicine and therapeutics University of College Dublin)

- I have known Dr. Salah Mohamed Ibrahim for over ten years. He came to our department with the highest recommendations from those with whom he had previously worked and with distinguished career in training. He more than fulfilled these expectations. He is one of the most accomplished, caring and thoughtful physicians whom I have had the privilege to train during a career in teaching extending nearly forty years. He is a skilled, excellent leader and administrator and relates extremely well to all his colleagues in medicine and allied health professionals. He completed his training in cardiology at a top institution and is accredited as specialist cardiologist and physician by the Irish Higher Committee on Medical Training. He has now returned to Sudan and is undertaking a major role in the development of Cardiological services in Khartoum and nationally. He has been appointed to a position which I understand is crucial to the development of these services and I can think of no individual who is better fitted to perform this task.

The above is the recommendation of Dr. Brian Maurer

Former director of the cardiac department in St Vincents University Hospital and University College Dublin.
