## **DETAILS OF CLINICAL EXPERIENCE**

### **Internship Rotation:**

**16/1/1980-15/7/1981**

I started my medical career as a house officer at Khartoum Teaching Hospital in Sudan, which is affiliated to University of Khartoum Medical School. It is the largest teaching hospital in the country, approximately 1000 beds, dealing with both acute & cold cases. I rotated at three months intervals between General Surgery, Medicine, Obstetrics & Gynecology, as well as orthopedics and Trauma.

These posts taught me how to deal with a wide range of medical and surgical emergencies, ranging from common cardiac and chest problems such as myocardial infarctions and pulmonary embolism to pre and post-operative care.

## **POST REGISTRATION EXPERIENCE**

**30/6/1981-31/3/1983**

### **Orthopedics & Trauma Surgery (University of Khartoum Unit)**

#### **Khartoum Teaching Hospital.**

**Consultant:** Mr. Adam Fad Allah.

At the time, this is the largest and busiest of three units serving Khartoum Province (population around 3 million), as well as receiving referrals from different parts of the country. My duties at that unit included:

- As a causality officer (Acting Registrar); covering causality twice a week, I dealt with a wide range of accident and trauma cases.
- In-patient care.
- Out-patient referral clinics (twice/week).
- Once a week ward round with consultant.

- Operating and assisting the consultant in theater twice a week.
- Supervision of house-officers as well as medical students.

During my period in Orthopedics & Trauma I gained wide experience in the management of emergency trauma patients. I also assisted at most of the major operations as well as performed most of the minor operations and a few major ones including manipulation and reduction of fractures, pin and plating, DHS fracture neck of femur, surgical management of compound fractures and below and above knee amputations.

**1/4/1983-15/7/1985**

**General Surgery ( University of Khartoum (U of K)**

**Surgical Unit, University of Khartoum, Khartoum Teaching Hospital.**

**Consultants:** Mr. Shaker Zein El abdin

Mr. El Rasheed A Ibrahim

**My duties included:**

- As casualty officer (once a week) dealing with surgical emergencies and deciding on admissions and operations as well as sorting out minor surgical problems.
- Running out-patient referral clinics (2/week). One of these clinics was a colorectal clinic, where I performed several proctoscopy, sigmoidoscopy, injection sclerotherapy of haemorrhoids, as well as attending several colonoscopy.
- Operating and assisting the consultants in the theatre twice a week.
- Supervising and teaching house officers and medical students.
- Grand round and discharge clinic once a week.

During my work in this department I gained good experience in handling and managing acute surgical problems. I attended at most of the major surgical operations. I also performed a few major operations and most of the minor surgery, ranging from appendectomy, herniorrhaphy, breast lumpectomy to bowel resection, cholecystectomy and laparotomy.

**1/11/1985-17/10/1989**

**Surgical Resident**

**King Fahad Specialist Hospital**

**Qassim, Saudi Arabia**

**Consultants:** Mr Ahmed H. Hamad, Dr Kent F. Curtis

King Fahad Specialist Hospital is the largest and main teaching hospital in the western province of Qassim. It is a 570-bedded hospital dealing with acute and cold cases as well as receiving referrals from other hospitals in Qassim.

I worked as a surgical resident in the following specialties:

### **1) Department of Neuro- Surgery**

I worked as a neurosurgical resident (Acting Registrar) for six months. Here I gained experience in handling and managing acute neurosurgical problems, especially those with head injury. I was responsible for inpatient care. I assisted the consultant in different minor and major operations.

### **2) Department of General Surgery**

I worked as an Acting Registrar for three years. My duties included:

- In-patient care.
- Second on call (1 in 5 rota) dealing with surgical emergencies as well as paediatrics, urology and acute trauma.
- Assisted the consultant in theatre twice a week. I performed a few major operations on my own, such as cholecystectomy and appendectomy.
- Attending and participating in academic activities including tutorials, seminars and clinical meetings.

### **3) Accident & Emergency:**

I worked as a casualty officer for six months. I was directly involved in the initial management of acute surgical and medical emergencies.

**Jan 1990-Aug 1990**

**Medical Officer (Acting Registrar)**

**General Surgery**

**Shendi General Hospital, Shendi, Sudan.**

This is a 250 bedded hospital in Northern Sudan, in which I did general surgical duties including outpatients and theatres.

**Nov 1990-Oct 1991**

Studying for the Fellowship Exam (FRSC Ed), UK.

Attending courses, workshops & seminars.

**April 1992 – May 1992**

I attended Principal of Surgery Courses, FRSC (Part B&C Course). Postgraduate Board of Medicine-Edinburgh-UK.

**Sept 1992-July, 1993**

Studying for the Fellowship Exam (FRSC Part II), Edinburgh, UK.

Attending several courses, workshops & seminars.

**Sept 1993- Feb 1994**

**Clinical Attachment –Orthopedics Department**

**Gwynedd Hospital –Bangor, North Wales**

**Consultant:** Mr. John Barnes

I spent this period as an observer in orthopedics. I attended ward rounds, theatre and outpatient clinics.

**Feb 1994- July 1994**

**SHO General & Vascular Surgery**

**Llandudno General Hospital –Llandudno, North Wales**

**Consultant:** Mr. G Watkin.

My on Call Rota was 1 in 3. I attended the outpatient clinic once a week with the consultant. I assisted in theatre (3 session a week). I also took part in the academic activities such as tutorials, seminars and clinical meetings, as well as audit.

**May 1995- May 1997**

**Clinical Attachment, General & Vascular Surgery**

**Leigh Infirmary**

**Consultant:** Mr J.G. Mosely

I regularly attended theatre and outpatient clinics and all other academic activities.

**Sept 1997- Sept 1998**

**Msc. of Surgery of Trauma**

**University of Birmingham, UK.**

Enrolled in Msc. Program of Surgery of Trauma at the University of Birmingham, UK.

**Dissertation:** “ Management of Intra-Abdominal Solid Organs Injuries”

**Aug 1998- Feb 2000**

**SHO Accident & Emergency**

**Wansbeck General Hospital, Ashington.**

**Consultant:** Mr. A.H. Hamad

In this post I have dealt with major and minor trauma, medical and surgical emergencies and the usual workload of a typical A&E Department. I learned to do medical audit and presented a number of cases.

**July 2000- Jan 2005**

**Staff Grade**

**A&E Department, and second on call for General Surgery and Orthopedics**

**Hexham General Hospital, Northumberland.**

In this post I dealt with major and minor trauma as well as medical and surgical emergencies. In addition I have been providing extra sessions in General Surgery, where I have been participating in surgical activities such as assessment of surgical patients, attending endoscopies, as well as assisting consultants in major and minor operations. Performed two (assisted) laparoscopic Cholesystectomies and few minor operations.

**May 2005-July 2005:**

**Clinical Attachment**

**Ibn Sina Specialist Hospital, Upper & Lower GI Surgery**

**Khartoum-Sudan.**

**Consultant: Prof. Mohamed Ahmed Ibnouf; Consultant G.I.T Surgeon.**

In this post I attended theatres & outpatient endoscopies. In addition to other medical activities such as tutorials, seminars and clinical meetings. I also attended as an observer a Laparoscopic Cholecystectomy Workshop on November 2005.

**Dec 2005- May 2006**

Several short locums at various hospitals in A&E Departments, England, UK.

**June 2006 – Dec 2006**

**Al Rebaat University Hospital, Orthopedics and Traumatology Department.**

**Khartoum-Sudan**

In this post I attended theatres, outpatient clinics and other academic activities. (This has been for partial fulfillment of the Specialist Assessment Program for the Sudanese Medical General Council).

**Feb 2007-May 2008**

Locum Staff Grade in departments of A&E, Trauma and General Surgery at various UK Hospitals, England –UK.

**May 2008-Aug 2008**

**Gloucestershire Royal Hospital, Gloucester, UK**

Locum Staff Grade in department of A&E, Wales–UK.

**Sept 2008-Dec 2009**

Locum Staff Grade in departments of A&E, Trauma and General Surgery at various UK Hospitals, England –UK.

**April 2010-Aug 2009**

**Department of G.I.T Surgery**

**Ibn Sina Specialist Hospital**

**Khartoum-Sudan**

**Consultants: Prof Abdel Magid Mohd Mussad (Consultant Surgeon)**

**Prof. Ibn Nouf (Consultant Surgeon, Laproscopist)**

The first three months of my enrollment has been for the partial fulfillment of the of Specialist Assessment, Sudan General Medical Council.

During this period I attended outpatient clinics, OPDS, theatres (twice/week), where I assisted in major & extra major abdominal operations such as gastrectomies-bowel resections, biliary reconstruction, laparoscopic and mini cholecystectomies. I performed a number of major operations such as mini cholecystectomies, gastrojejunostomies, & cholecystectomies.

I regularly attended endoscopies' clinics, (diagnostic & therapeutic upper & lower endoscopies). I performed a number of OGDS & sigmoidscopies.

I was also engaged in medical teaching of students as well as registrars. In addition, I participated in the final MBBS examination for the Faculty of Medicine, Omdurman Islamic University (Sept 2010), as well as Al Neileen University Former Juba University Final MBBS examination (2010-2011).

**September 2011-October 2013**
